INDEX TO VOLUME LXII, 1950

PAGE

Accounting, Cost, Naval Shipyard, by Emmett E. Sprung 273
Alignment, Marine Engine, Unusual Method of, by Laurie R. Wallace 309
Alpert, J., and H. J. Stark and T. L. Shoemaker; Buoyancy Characteristics 139
Aluminum Alloys, Heat Treatable Welding, by B. B. Burbank 811
Analysis of Temperature Distribution in a Metal Hollow Cylinder of Finite Radius Under Unsteady State Conditions, from E. E. S. Data, by Robert J Knox 587
Antennas, Cylindrical Sleeve, Experimentally Determined Characteristics of, by O. Norgorden and A. W. Walters 365
Art of Bilge Diving Brought up to Date, by Isaiah Olch 339
Atomic Power and Fuel Supply (Reprint) 439
Bell, Philip D., Integrated Specification Product Performance, Part II, The Capacitor 557
Bilge Diving, Art of, Brought up to Date, by Isaiah Olch 339
Blower, James E., and Charles W. Harrison, Jr.. Electronics—Your Future 99
Blumenstock, Norman, and Donald Herr; A New High-Precision, Universal Frequency Computer Component 325
Book Review:
Radio Amateur's Hand book, 1950 536
Model Resistance and Expanded Resistance Data Sheets 537
"Steam Turbines and Their Cycles," by J. Kenneth Salisbury 744
"Japan Science Review" 745
Boiler Testing, Measurement Accuracy Requirements for, by J. W. Murdock 823
Boiler Water Treatment (Reprint) 937
Boiler Waterside Cleaning, by S. Greenberg, J. L. Smith and A. Howarth 835
Bukzin, E. A., and T. A. Werkenthin, E. F. Greenleaf and E. Levine; Some Uses of Rubber in Naval Vessels 789
Buoyancy Characteristics, by H. J. Stark, J. Alpert and T. L. Shoemaker 139
Burbank, B. B., Welding Heat Treatable Aluminum Alloys 811
Can Shipping Survive an Atomic War? (Reprint) 931
Cathodic Protection and the Electrocoating Process, Marine Applications of, by Herman S. Preiser and Bennett L. Silverstein 881
Ceramics in Gas Turbines, Outlook for (Reprint) 690
Circular Cylinder Stresses, by M. Kornhauser 55
Clark, D. H., Industrial Mobilization Planning 9

PAGE

Cleaning, Boiler Waterside, by S. Greenberg, J. L. Smith and A. Howarth ... 835
Comments on Ship Performance, by Charles H. Meigs ... 779
Computer Component, Universal, a New High-Precision, by Donald Herr and Norman Blumenstock ... 325
Corrosion Research in the Navy (Reprint) ... 463
Crawford, Lyndon, and John W. Sawyer; A Mercury Shaft Seal ... 349
Current Planning for Shipbuilding, by F. E. Haeberle ... 763
Cycloidal Propulsion, The Development of with Particular Reference to Voith-Schneider (Reprint) ... 178
Cylinder Liner Wear, And Working Theory of, Compared with Practical Observations, Attempt to Find (Reprint) ... 451
Cylindrical Sleeve Antennas, Experimentally Determined Characteristics of, by O. Norgorden and A. W. Walters ... 365
Developments in Interrupted Surface Finishes, Preliminary Report of (Reprint) ... 487
Development of Graphic Aids to Preliminary Design, by Cedric Ridgely-Nevitt ... 303
Diesel Engines, Preventive Maintenance Through Lubrication Control on, by M. B. Flint ... 575
Electrodes, Nickel-Molybdenum Vanadium Alloy Steel Shielded (Low Hydrogen Type), by E. H. Franks, C. T. Gayley and W. H. Wooding 601
Electronics—Past, Present and Future (Reprint) ... 202
Electronics—Your Future, by Charles W. Harrison, Jr. and James E. Blower ... 99
Engineer as a Manager (Reprint) ... 683
Erosion, Sand and Dust, in Aircraft Gas Turbines (Reprint) ... 505
Experimentally Determined Characteristics of Cylindrical Sleeve Antennas, by O. Norgorden and A. W. Walters ... 365
Fatigue Testing of Marine Shafting, Large-Scale (Reprint) ... 185
Fire Fighter's Suit, Naval, New, by David F. Richardson and Robert Grubb ... 383
Flint, M. B., Preventive Maintenance Through Lubrication Control on Diesel Engines ... 575
Fly-Ash Erosion Studies on (Reprint) ... 211
Franks, E. H., and C. T. Gayley and W. H. Wooding; Nickel-Molybdenum Vanadium Alloy Steel Shielded Arc Welding Electrodes (Low Hydrogen Type) ... 601
Free Piston Gasifiers, Operational Stability of, by R. Huber ... 259
Furer, Julius A., Naval Research and Development in World War II ... 21
Furnace Exit Temperatures, by Jens T. Holm ... 145
Future Machinery, A Staff Article ... 845
Gassifiers, Free Piston, Operational Stability of, by R. Huber ... 259

PAGE

Gayley, C. T., and E. H. Franks and W. H. Wooding; Nickel-Molybdenum Vanadium Alloy Steel Shielded Arc Welding Electrodes (Low Hydrogen Type) 601
Gearing, Reduction, Marine, Trends in Development of (Reprint) 165
Greenberg, S., and J. L. Smith and A. Howarth; Boiler Waterside Cleaning 835
Greenleaf, E. F., and T. A. Werkinthin, E. A. Bukzin and E. Levine, Some Uses of Rubber in Naval Vessels 789
Grubb, Robert, and David F. Richardson; A New Naval Fire Fighter's Suit 383
Haeberle, F. E.; Current Planning for Shipbuilding 763
Harrison, Charles W., Jr., and James E. Blower; Electronics—Your Future 99
Helium, Applications for in Inert-Arc Welding (Reprint) 1012
Herr, Donald, and Norman Blumenstock, A New High-Precision, Universal Frequency Computer Component 325
Holm, Jens T.; Furnace Exit Temperatures 145
Howarth, A., and S. Greenberg and J. L. Smith; Boiler Waterside Cleaning 835
Huber, R., Operational Stability of Free Piston Gasifiers 259
Hydraulic Seals (Reprint) 631
Industrial Mobilization Planning, by D. H. Clark 9
Integrated Specification Product Performance, Part 1. The Problem, by Ellsworth F. Seaman 557
Jasper, Norman H., A Statistical Approach to the Longitudinal Strength Design of Ships 565
Knox, Robert J., An Analysis of Temperature Distribution in a Metal Hollow Cylinder of Finite Radius under Unsteady State Conditions from E. E. S. Data 587
Kornhauser, M., Circular Cylinder Stresses 55
Labrum, Willard D., Powder Metallurgy 63
Laminated Timber, Glued, Naval Uses for, by Peter W. Mourer, Jr. 621
Levine, E., and T. A. Werkenthin, E. A. Bukzin and E. F. Greenleaf, Some Uses of Rubber in Naval Vessels 789
Lights and Laws, by Charles E. Wilkenloh 871
Longitudinal Strength Design of Ships, Statistical Approach to, by Norman H. Jasper 565
Low Hydrogen Type Nickel-Molybdenum Vanadium Alloy Steel Shielded Welding Electrodes, by E. H. Franks, C. T. Gayley and W. H. Wooding 601
Magnesium in Navy Planes (Reprint) 433
Marine Applications of Cathodic Protection and the Electrocoating Process, by Herman S. Preiser and Bennett L. Silverstein 881

PAGE

Marine Boiler Deterioration (Reprint) 405
Marine Engine Alignment, Unusual Method of, by Laurie R. Wallace 309
Measurement Accuracy Requirements for Boiler Testing, by J. W. Murdock 823
Meigs, Charles H., Comments on Ship Performance 779
Merchant Fleet, Importance of Our (Reprint) 627
Mercury Shaft Seal, by John W. Sawyer and Lyndon Crawford 349
Metals for Gas Turbines (Reprint) 920
Mourer, Peter W., Jr., Naval Uses for Glued Laminated Timber 621
Murdock, J. W.; Measurement Accuracy Requirements for Boiler Testing 823
Naval Research and Development in World War II, by Julius A. Furer 21
Naval Uses for Glued Laminated Timber, by Peter W. Mourer, Jr. 621
Navigation Instrument, by John W. Sawyer 155
New High-Precision, Universal Frequency Computer Component, by Donald Herr and Norman Blumenstock 325
New Naval Fire Fighter's Suit, by David F. Richardson and Robert Grubb 383
Nickel-Molybdenum Vanadium Alloy Steel Shielded Arc Welding Electrodes, (Low Hydrogen Type), by E. H. Franks, C. T. Gayley and W. H. Wooding 601
Norgorden, O., and A. W. Walters; Experimentally Determined Characteristics of Cylindrical Sleeve Antennas 365
Olch, Isaiah; The Art of Bilge Diving Brought Up To Date 339
Patent Law, Some Notes on (Reprint) 1005
Planning for Shipbuilding, Current, by F. E. Haeberle 763
Planning, Industrial Mobilization, by D. H. Clark 9
Powder Metallurgy, by Willard D. Labrum 63
Powder Metallurgy (Reprint) 909
Preiser, Herman S., and Bennett L. Silverstein, Marine Applications of Cathodic Protection and the Electrocoating Process 881
Preliminary Design, Development of Graphic Aids to, by Cedric Ridgely-Nevitt 303
Preventive Maintenance Through Lubrication Control on Diesel Engines, by M. B. Flint 575
Product Performance, Specification, Integrated; Part II, The Capacitor, by Philip D. Bell 557
Propellers, Singing (Reprint) 224
Refrigerated Ships, The Design of (Reprint) 230
Research and Development, Naval, in World War II, by Julius A. Furer 21
Richardson, David F., and Robert Grubb; A New Naval Fire Fighter's Suit 383
Ridgely-Nevitt, Cedric; Development of Graphic Aids to Preliminary Design 303

PAGE

Rubber in Naval Vessels, Some Uses of, by T. A. Werkenthin, E. A. Bukzin, E. F. Greenleaf and E. Levine ... 789
Sawyer, John W., and Lyndon Crawford; A Mercury Shaft Seal ... 349
Sawyer, John W., A Navigation Instrument ... 155
Screwshaft Casualties—The Influence of Torsional Vibration and Propeller Immersion (Reprint) ... 715
Shaft Seal, Mercury, by John W. Sawyer and Lyndon Crawford ... 349
Ship Performance, Comments on, by Charles H. Meigs ... 779
Ships' Electrical Auxiliaries—A Comparison Between Alternating and Direct Current Drives (Reprint) ... 968
Ships, Longitudinal Strength Design of, Statistical Approach to, by Norman H. Jasper ... 565
Shoemaker, T. L., and H. J. Stark and J. Alpert, Buoyancy Characteristics ... 139
Silverstein, Bennett L. and Herman S. Preiser; Marine Applications of Cathodic Protection and the Electrocoating Process ... 881
Smith, J. L., and S. Greenberg and A. Howarth; Boiler Waterside Cleaning ... 835
Some Uses of Rubber in Naval Vessels, by T. A. Werkenthin, E. A. Bukzin, E. F. Greenleaf, and E. Levine ... 789
Spear, Lawrence York, Obituary ... 1017
Specification Product Performance Integrated, Part I. The Problem, by Ellsworth F. Seaman ... 557
Sprung, Emmett E.; Naval Shipyard Cost Accounting ... 273
Stark, H. J., J. Alpert and T. L. Shoemaker; Buoyancy Characteristics ... 139
Steels, Engineering, Under Combined Cyclic and Static Stresses (Reprint) ... 646
Sulphur in Diesel Fuels (Reprint) ... 991
Temperature Distribution in a Metal Hollow Cylinder of Finite Radius Under Unsteady State Conditions, Analysis of from E. E. S. Data, by Robert J. Knox ... 587
Temperatures, Furnace, Exit, by Jens T. Holm ... 145
Titanium Program of the U. S. Naval Experiment Station, by W. Lee Williams ... 855
Torsional Fatigue Testing of Marine Shafting, Large-Scale (Reprint) 185
Transition Temperature of Ship Plate in Notch-Tensile Tests (Reprint) 699
Vibration Diagnosis in Marine Geared Turbines (Reprint) ... 512
Wallace, Laurie R.; An Unusual Method of Marine Engine Alignment 309
Walters, A. W., and O. Norgorden; Experimentally Determines Characteristics of Cylindrical Sleeve Antennas ... 365
Welding Heat Treatable Aluminum Alloys, by B. B. Burbank ... 811
